

# CHUTES

## A. Original Equipment Manufacturer (OEM)

The following is a list of the OEMs for chutes. Local dealers should be contacted for specific needs and details.

Manufacturer	Rubber-Line Chutes (Cost)	Ceramic Liners (Cost)	Abrasive-Resistant Material (Cost)	Rubber and Polyurethane Liners (Cost)
Aggregates Equip, Inc.	X (\$15-\$20/ft <sup>2</sup> )			
Bulk Systems--Div. of Jervis B. Webb Co.				
Ceramic Technology, Inc.		X (½" thick: \$30-40/ft <sup>2</sup> ) (1" thick: \$40-50/ft <sup>2</sup> ) (2" thick: \$60-75/ft <sup>2</sup> )		
Cerline Ceramic Corp.		X (½" thick: \$30-40/ft <sup>2</sup> ) (1" thick: \$40-50/ft <sup>2</sup> ) (2" thick: \$60-75/ft <sup>2</sup> )		
Chapel Steel Company				
Daniels Company				

Manufacturer	Rubber-Line Chutes (Cost)	Ceramic Liners (Cost)	Abrasive-Resistant Material (Cost)	Rubber and Polyurethane Liners (Cost)
Kanawha Mfg. Company				
Linatex Corp. Of America			X ( $\frac{1}{4}$ " thick: \$9.30/ft <sup>2</sup> ) ( $\frac{1}{2}$ " thick: \$18.10/ft <sup>2</sup> )	
W. W. Sly Mfg. Co.				
Trellex--Div. of Sevedaia Industries				X ( $\frac{1}{2}$ " thick: \$33/ft <sup>2</sup> ) (4" thick: \$85/ft <sup>2</sup> )

"X" indicates product availability.

## B. Retrofit Noise Controls

The following is a listing of retrofit noise controls and costs available from the following sources.

Manufacturer	Material (Cost)
Aggregates Equip, Inc.	Rubber-Lined Chutes Composite-Type Material (\$15 to \$20/ft <sup>2</sup> )
Ceramic Technology, Inc.	Ceramic Liners ( $\frac{1}{2}$ " thick = \$30-\$40/ft <sup>2</sup> ) (1" thick = \$40-\$50/ft <sup>2</sup> ) (2" thick = \$60-\$75/ft <sup>2</sup> )
Cerline Ceramic Corporation	Ceramic Liners ( $\frac{1}{2}$ " thick = \$30-\$40/ft <sup>2</sup> ) (1" thick = \$40-\$50/ft <sup>2</sup> ) (2" thick = \$60-\$75/ft <sup>2</sup> )
Linatex Corp. Of America	Abrasive-Resistant Material ( $\frac{1}{4}$ " thick = \$9.30/ft <sup>2</sup> ) ( $\frac{1}{2}$ " thick = \$18.10/ft <sup>2</sup> )

Manufacturer	Material (Cost)
Trellex--Division of Sevedaia Industries	Rubber and Polyurethane Liners ( $\frac{1}{2}$ " thick = \$33/ft <sup>2</sup> ) (4" thick = \$85/ft <sup>2</sup> )

**C. Alternative Technology**
